Re: Non-Profit Registration Confirmation

Dear Joseph H. Proietta,

The School District of Philadelphia, Office of Minority and Small Business Development (OMSBD), has reviewed your registration documentation for consideration as a Non-Profit Organization (NPO) that is managed and primarily controlled by Minorities and/or Women. Based on the documentation provided, the OMSBD has determined One Bright Ray meets that criteria; this internal certification can be used for School District of Philadelphia contracting opportunities.

Your organization will be listed in our database with a status of **W/NPO**. This internal certification is valid effective 9/5/2018 and has a term date of one year. Any renewals require a resubmission and re-evaluation of all applicable documentation. The Board of Directors, Voting Membership, and Key Staff must continue control the NPO's daily and long-term operations.

As a W-NPO, the Office of Minority and Small Business Development has determined that The One Bright Ray will be provided the opportunity to bid as a WBE prime contractor and be considered for subcontracting opportunities where a range of participation of WBE firms are required.

This status is for the School District of Philadelphia use only. It is not an external certificate of WBE certification. It is not intended to imply that your organization is guaranteed any School District of Philadelphia contracting opportunities.

We wish you success in your business endeavors. Thank you for your interest in the School District of Philadelphia.

Sincerely,

Richard K Brown
Office of Procurement Services
